## THE REPUBLICAN PRESS STILL DENOUNCES TAYLOR.

**Hanged Himself.**  
Buffalo Enquirer, Ind. and anti-Goebel:—Taylor's course has become utterly reckless, and he has made himself liable to impeachment even if it could be shown that he were the legal Executive of the State. Taylor has taken all the rope that has been given him by the peaceable course of the Democracy and has promptly hanged himself.

**Proves Himself Unworthy.**  
Buffalo Courier, Dem. and anti-Goebel:—Whether fairly elected or not, he has proven himself unworthy of public trust, and his revolutionary acts have caused a revulsion of popular feeling in favor of Goebel, who, if he lives, is master of the situation; and if he dies, can go in the realization that he has again outgeneraled his opponents.

**All Law Set at Defiance.**  
Pittsburg Leader, Rep.:—As if the record for egregious blundering which he has already achieved were not sufficient to advertise him in the world as a weakling, and an incompetent, W. S. Taylor, the Governor-elect of Kentucky, furnishes fresh evidence of his folly by refusing to recognize the habeas corpus act. \* \* \* Taylor and his armed followers literally set all law at defiance and are now in an attitude of insurrection against all authority except that which they arbitrarily exercise on their own account and which finds its sole warrant in Taylor's occupancy of the Statehouse at Frankfort and his control of a body of State troops large enough to defy the Legislature and the courts. All the demoralization and lawlessness thus far have been on the side of the same man who was lawfully elected Governor, but who has not the sense and the moral courage to defend his rights in a decent and orderly fashion.

**Acts Like a Maniac.**  
Springfield Republican, Rep.:—Gov. Taylor has acted more like a maniac than a sensible man ever since the attempted assassination of Mr. Goebel. There seems to be little difference of opinion on the point that the Governor was entirely without legal warrant in adjourning the Legislature. \* \* \* There is no excuse for such actions as these. Gov. Taylor has assumed a role dangerously near the revolutionists'. \* \* \* However just may have been the Republican claim to the office of Governor of Kentucky, it is anarchical to use revolutionary methods in the attempt to vindicate the claim. If in 1877 the Democrats of the United States had brought into the Tilden-Hayes Presidential contest the spirit now displayed by Gov. Taylor and the Kentucky mountaineers, the United States would probably have been convulsed with civil war. It is now a comparatively small issue whether Taylor be kept in office or not, on the strength of his claim of election; the greater issue is the maintenance of the law and of constitutional processes. The contest is become one for the courts to settle.

**Republican Insurrection.**  
Providence Journal, Rep.:—If there was any insurrection at Frankfort it was a Republican insurrection pure and simple. The rowdism of the last few days, the apprehensions of nervous people residents of Frankfort, the rioting and disorder are directly traceable to the influx of the Republican mountaineers, armed, and in a majority of instances ignorant and uncouth, if reports are true. What a pitiful situation. Whatever we may think of the methods of Goebel it is clear that he was proceeding within the letter of the law to obtain his seat in the Executive office. The Republicans have invited Democratic success in Kentucky next November. There is not another State in which Mr. Bryan is so likely to gain over his electoral vote of '96.

**Hends Bowed in Shame.**  
Syracuse Telegram, Ind. and anti-Goebel:—If there were any justice in Taylor's cause, his whole course since the shooting of Goebel has been of a character to make even his sympathizers bow their heads in shame.

**Weak Man.**  
Chattanooga Times, Dem. and anti-Goebel:—Gov. Taylor is a weak man who lacks the nerve and poise and brand of moral courage demanded for the handling of such a situation. And the most injurious error he has made was his appeal to Federal authorities for "help."

**Advocates War.**  
New Orleans States, Dem. and Anti-Goebel:—The conditions in Kentucky are very similar to those in Louisiana in 1874. The only way for the Kentucky Democrats to settle their trouble with the scoundrels who are dishonoring their State and carrying on a reign of buldozing and assassination is to resort to their shooting irons and put down by shot and shell the insurrection, just as Louisiana did in 1874.

**The Law Must Be Respected.**  
Washington Post, Ind. and Anti-Goebel:—The law upon the statute books applicable to the existing complications, be it ever so unjust, must command respect and obedience. When it ceases to do so anarchy ensues. Mr. Taylor has been amazingly tardy in recognizing this fact. His tardiness will amount to a public crime if it is continued.

**Mr. McKinley's Good Sense.**  
Hartford Post, Rep.:—The decision of President McKinley not to take a hand in the affairs of Kentucky is wise and it has commanded the general approval of the country. Presidential intervention would make a bad situation worse and would tend to aggravate existing conditions and to supply an irritant where ice water is needed.

**Law Enough in Kentucky.**  
Denver Times, Rep.:—There ought to be law enough in Kentucky to settle the matter without outside interference.

**Counsel for Taylor.**  
Chicago Times-Herald, Rep.:—Cool-headed, sagacious Republicans would have counseled Taylor to avert the perils to the peace and good order of the Commonwealth involved in openly resisting the Legislature. They would have advised submission to the mandate of the Legislature rather than embroil the State in disgraceful strife.

**A Taylor Contention Destroyed.**  
Chicago Record, Rep.:—Legally the situation has been somewhat cleared by the action of the Legislature in reaffirming in each house separately the decision unseating Taylor and Marshall as Governor and Lieutenant Governor respectively and giving the offices to Goebel and Beckham. This destroys the contention of the Taylor adherents that the decision seating Goebel and Beckham was illegal.

**Work for Taylor.**  
Philadelphia Bulletin, Rep.:—Reputable citizens outside of Kentucky would like to see Gov. Taylor show a little more energy and earnestness in hunting down the assassin of Goebel.

**Courts Have No Terror For Taylor.**  
Pittsburg Dispatch, Rep.:—The court undoubtedly is the proper place to decide the issue—if there is any real issue—but this sort of proceeding is not likely to accomplish that end. A Governor who has not scrupled to turn a Legislature out of doors, on no better claim than that of an insurrection, of which his own followers were the visible sign, will hardly hesitate much at ignoring such a stretch of the theory of govern-

ment by injunction. \* \* \* The whole dispute is a blot on democratic government, and since Gov. Taylor has so flagrantly put himself in the wrong by the attempt to drag on a Legislature of whose standing as the Legislature of Kentucky there is no doubt, it is especially damaging to the Republican organization of Kentucky.

Gov. Beckham though a young man is not a new one in statecraft. He was Speaker of the last House and is a man of convictions, courage and determination. Adjutant General Castleman has served in two wars and is a brave, conservative and cool-headed man. Democrats can afford to rest easy with them in charge.

**WANTED!**  
Reliable man for Manager of Branch Office I wish to open in this vicinity. Good opening for an energetic, sober man. Kindly mention this paper when writing. A. T. MORRIS, Cincinnati, Ohio.  
Illustrated catalogue 4 cts. postage.

**Nervous Prostration.**  
I had nervous trouble for years, which at times completely prostrated me and made life not worth living. I tried many physicians and no end of nerve and other remedies without relief. Mr. M. J. Crews, merchant, May, Iowa, persuaded me to try Morley's Sarsaparilla and Iron. The very first bottle went to the right spot, for I felt a complete change and now, after using six bottles in all I am perfectly well. MRS. LETTIE FISHER.  
For sale by W. M. Bell, Jopka, Ky.

**GEORGETOWN.**  
Georgetown is a beautiful city of the famous blue grass country and excels Russell county in everything except pretty girls.

Wheat looks well in Scott county, as it is one of the best wheat and tobacco counties in the State.  
Russell county is well represented in this college with some of her best teachers, viz. Loren O. Phelps, T. S. Isbell, C. L. Phelps and Elmer Wheat.

This college is represented by about 400 pupils, some from nearly every state in the Union.

We have two societies, T. O. K. and Ciceronian. The T. O. K. leads of course, because the Russell county boys belong to it.

**Lee Lawless.**  
There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by M. Cravens.

The Arrow Nail Mill, at Anderson, Ind., operated mainly by Covington, Ky., capitalists, and employing 300 men, was closed yesterday. It was organized to complete the Nail Trust.

**An Editor's Life Saved by Chamberlain's Cough Remedy.**

During the early part of October, 1896, I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—R. S. EDWARDS, Publisher of The Review, Wyant, Ill. For sale by M. Cravens, Columbia, Ky.

Secretary McCormack is making an effort to induce the Legislature to raise the annual appropriation for the State Board of Health from \$2,500 to \$5,000, because of the recent outbreak of smallpox in various parts of the State.

## OBITUARY.

Mary S. Murrell, daughter of Anderson and Lavania Murrell, was born in Adair county, Ky., September 16, 1847; was converted under the ministry of Rev. S. H. Lovelace, September 17, 1867, and united with the Methodist Episcopal Church South. She was afflicted all her life with that distressing disease, epilepsy; otherwise, she was usually in good health. She was very industrious, and though for many years, her mind was so beclouded on the account of disease as not to be responsible for her acts or to know the designs of labor, she still showed she had an industrious disposition—would do some little things such as she could.

Her life was one of suffering, especially mental suffering, but she has gone to that country where she shall be blessed with health and the proper use of her mind while the eternal years go by.

She died at her old home February 4; was sitting in her chair near her brother, James, when a noise attracted his attention, he beheld her falling to the floor, but as she was given to falling sickness, he supposed it was one of her usual spells, but soon saw death had come for her. While her father and mother lived she was tenderly cared for by them, and after their departure she has been tenderly looked after by her brothers, Nathan and James, who live at the old home place. She has joined her father and mother and two sisters who preceded her to the glory land.

Her brother,  
J. L. MURRELL.

## A Night of Terror

"Awful anxiety was felt for the widow of the General Burnham of Machias Me., when the doctor said she would die from pneumonia before morning" writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of consumption. After taking, she slept all night. Further use cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1.00. Trial bottle free at T. E. Paull's Drug store.

When warned of the fate that so soon befell him, Mr. Goebel said: "Well, if I am shot down the result will be to the Democracy of Kentucky what the blowing up of the Maine was to Cuba." And truer words and more faithful prophecy was never spoken.

## Chronic Sore Leg.

Mr. J. Richardson had a running sore on his leg for 20 years. Tried doctors and medicines without end or any permanent good. Mr. L. B. Nunnally, druggist, Hartford, Ia., recommended Morley's Sarsaparilla and Iron to cure the cause of the sore and make it heal from the inside. A few bottles cured my leg and put me in better health than I have been for 20 years. Sold by W. M. Bell, Jopka, Ky.

A desperate effort is being made to get recruits for the Louisville Legion.

## Stood Death Off.

E. R. Monday, a lawyer of Henrietta Tex., once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try electric bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malarial, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c at T. E. Paull's drug store.

Escaping steam into a sewer near Fourth and Green streets came near causing the death of five sewer cleaners.

Children love to take Morley's Little Liver Pills for Bilious People, because they are small, look and taste like candy and do not gripe nor sicken them. Sugar-coated. One a Dose. Sold by W. M. Bell, Jopka, Ky.

## A Warning.

Pain or soreness in the back must never be slighted. Kidney diseases creep on us with only that one warning. Delay is folly when by timely use of Morley's Liver and Kidney Cordial, the great System renovator, all danger can be avoided. This remedy is a positive cure for Kidney and Urinary Troubles. Sold by W. M. Bell, Jopka.

Secretary Root reports that there are 10,848,150 men available for military duty in this country.

As a result of the building trades strike at Chicago one man was shot and two others beaten by strikers.

If the reader of this should chance to know of any one who is subject to attacks of bilious colic he can do him no greater favor than to tell him of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It always gives prompt relief. For sale by M. Cravens.

The body of Gen. Lawton is lying in State at Indianapolis.

The Louisville Street Railway Company paid its city taxes for 1900, amounting to \$70,125.22.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Hermine, Pa. "I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best medicine I have got hold of." One application relieves the pain. For sale by M. Cravens, Columbia, Ky.

Federal Judge Taft, Cincinnati, was appointed by the President as chairman of the Philippine Commission.

More interesting testimony was offered in the Clark bribery investigation at Washington.

University of Chicago Takes a Departure—Work of Dissection by Students Begins in Laboratory.

The University of Chicago has introduced the study of human anatomy in its curriculum and the work of dissection was begun the other day for the first time in the university laboratory. So far as known, the university stands alone among the schools not distinctly medical to introduce human dissection in the classroom. The class is open to both men and women, and the course is taken not only by students preparing for medical schools but by students of sociology, biology and allied sciences. Seventeen men are enrolled already.

Dr. H. H. Donaldson, head of the department, has general supervision of the work. The laboratory work is in charge of Dr. H. W. Lewis, surgical intern at Cook county hospital. "The study of human anatomy," said Dr. Donaldson, "has been taken up in accordance with the plans of the university to give a preparatory course for medical colleges. Many of the students taking the course are preparing for a study of medicine. Others take it up in its relation to other sciences. It is perhaps the first time human dissection has been brought on a university campus when the medical buildings were not there. It is only a natural step, however. Physiology and chemistry were originally fostered by the medical colleges. The university had a building fitted for the work. Rush medical college is interested in seeing the work carried on as supplementing its preparatory courses."

## WANTED, AN INTERPRETER.

United States Looking for a Man Who Can Understand and Talk the Croatian Language.

The United States is hunting for a man qualified to act as interpreter in the Croatian and Lithuanian languages at the port of New York. The United States is being scourged for such a man. Dr. Alexander Schamp, who declares he can read 16 languages, said: "It will be hard to get an interpreter in Croatian and Lithuanian. I am free to confess that I am ignorant of those languages. Man's vocal organs have their limitations, and if they get an interpreter who is any good he will be an all round lingual athlete of rare excellence."

"Croatia and Lithuania are Slavonic provinces on the Russian border. To properly articulate Croatian words one must have a rubber mouth, a rubber neck, and leather lungs, reinforced with patches on the inside. From the way it looks on paper, I am of the impression that writing it requires the use of both hands and feet. "On hearing two Croats in conversation and not seeing them, one would imagine that there was a dog fight in the vicinity. I don't anticipate that it is going to be easy to get men to take part in the examination on February 6."

**Insanity vs. Hard Luck.**  
An Indiana man is charged with insanity because he burned up \$3,000 in currency. If he had lost it in a bucket-shop, comments the Chicago Times-Herald, his friends would have regarded it simply as a case of hard luck.
